

BLINK

2010 KONA BIKES / UK SPECIFIC HARDTAIL 120MM

£900

- Kona Cromoly classic tubeset. With trail ready geometry.
- 120mm Rockshox fork
- Lock on grips.
- Hydraulic disc brakes 7" front 6" rear.
- Full cable outers.

Steel is back for 2010 - Our roots lie in these tubes, we've been building, racing and riding the best steel hardtails since 1988. We changed the geometry to accommodate a 120mm trail fork, a bit of extra travel, a bit more braking power, extra mud clearance and full length cable outers are just a few of the changes we made to offer you something a little bit special...! Pick up a Blink and see what we are talking about.
